

IMPORTANT NOTICE

RE: FLOOD INSURANCE

In the wake of the recent devastation suffered by our southern neighbors due to Hurricanes Katrina, Rita and Wilma, we, at RCI Insurance Group, wanted to provide you with important information regarding flood insurance.

As you are already aware, Hurricanes Katrina, Rita and Wilma caused massive flooding in New Orleans and other gulf coast cities. But, did you know that...

~~✂~~ **You are not covered for flood damage without a flood insurance policy, and**

~~✂~~ **98% of homeowners & business owners do not have a flood policy, and that**

~~✂~~ **25% of flood claims happen in low-risk flood zones.**

Here are a couple of common trains of thought regarding flood insurance:

Myth #1: People don't think they need flood insurance, especially if they don't live near a lake or river. **Wrong!** Flooding is not limited to waterfront property. Flooding can happen anywhere, anytime! It happens most often after an extended period of torrential rains.

Myth #2: People think they can't afford flood insurance because it costs too much! **Wrong!** Flood insurance doesn't have to be expensive. It depends on whether you are in a high-risk flood area or a low-risk flood area among other things. **Besides, quotes are free!**

Flooding happens in every state and six out of ten declared disasters involve flooding. If a torrential rain hits our area and you don't have flood insurance already in place, you could be paying for all expenses and repairs from your resources or be dependent on the resources of your local, state, and federal assistance programs. Plan ahead. Be prepared. Call us today!
